Day 2: Life in OLD AGE HOME

Day Date: 08/03/2022

The objective of the second day was to create awareness on similarities between a child and an old person.

Students visited Senior Citizens Forum in Kanuru to learn about the experiences of two extreme corners of the life i.e., young and old age. Students realized that there are two categories of people in old age home: the ones who are abandoned and deserted by their families and others who are physically disabled and mentally disturbed. Elderly people shared their experiences and requested the students to give respect to their parents, grandparents and family. In this camp students learned that old age is also called the second childhood and is a time when one needs love and care of their near and dear ones. Students promised them to visit the home regularly to share their love.
